Introduction

Easor financial management software is designed to meet the financial management needs of businesses of all sizes, with clear pricing models and flexible features.

This price list contains the tools and services included in the software, as well as the pricing, terms and conditions, and the customer's responsibilities when using the service. The content of the price list provides a comprehensive overview of the software, helping the customer company to make the most of its features effectively and according to current business needs.

Easor reserves the right to modify the contents of this price list.

Our Easor financial management software is mainly priced according to fixed fees. The competitive fixed price requires that we have defined the contents of the service and identify additional work not included in the fixed price.
